

QuickTask 100% Polyester Mop Head

Multi-Layer Knitted 100% Polyester Mop

The QuickTask mopping range consists of a variety of flat mop heads that can be easily attached to a choice of flat mop head frames and handle assemblies.

QuickTask TASK0200 and TASK0250 mop heads are constructed from multi-layers of 100% knitted polyester creating a highly sorbent mop which allows for an even application of solution. The cleanroom laundered polyester ensures a very low level of particulates making the mop suitable for use in the highest grade of cleanroom.

The sterile version is gamma irradiated and validated sterile to a 10^{-6} SAL.

The mop heads are compatible with a wide range of chemicals and disinfectants, including chlorine solutions. The multi-layer knitted polyester mop head is ideal for use on smooth surfaces and it applies solutions evenly and removes contaminants uniformly.

The heads are compatible with the QuickTask Magnetic Mop Head Frames 2906 and 2699, and the QuickTask Polypropylene Mop Frame 2740.
